CRAZE.

**SUMMER  
TREND.**

SHOULD TAKE A  
LOOK.

# Welcome to the future of fashion!

We are a magazine **completely designed through AI** (Artificial Intelligence).

Our goal is to bring awareness to a new tool capable of bringing new possibilities for fashion creators.

Through this technology, it becomes possible for fashion **ideas** and **visions** to be realized in a **simple** and **practical** way.

We don't want to be a fashion icon, but rather a facilitator for fashion creators.

With knowledge about this technology, designers can bring their ideas to life quickly and easily.

**Our magazine uses AI to design clothes, create patterns, visual effects, and the models themselves are entirely virtual.**

# NEW ERA OF FASHION.

This means that fashion designers can save time and effort when creating new clothing pieces and have more freedom to experiment with bold and innovative ideas.

Through AI, designers have the ability to choose different clothing styles, patterns, and colors, as well as being able to adjust and modify existing designs to better suit their needs.

This means that designers can create something unique and exclusive that reflects their personal fashion vision.

We are excited about the future of fashion and hope that our AI magazine can be a catalyst for the creation of new and exciting fashion trends. We are committed to bringing awareness to tools that allow designers to realize their visions in a practical and easy way. We provide the tools used and prompts in the magazine that made this possible.

**Whether you are a fashion designer or just love fashion, take a look at our AI magazine.**

\*p2

## We are excited to see what you will create!

We are truly excited to see what you will create with the new fashion tools available in the market.

Whether you are a fashion designer or just someone passionate about fashion, we want to see your creations!

Please send us your creations to our email [ai@lindadevelop.com](mailto:ai@lindadevelop.com).

We can't wait to see your fashion ideas come to life!

Don't waste time with generic software solutions that don't fit your needs.

With custom software, you'll have a solution tailored to your business needs.

Or scan this barcode:

A woman with long brown hair, wearing a sleeveless, knee-length dress with a vibrant floral pattern in shades of pink, blue, and orange. She is standing outdoors between two white patio umbrellas. The background is a blurred green wall. The image is framed by a white border with decorative elements: three dots in the top left and horizontal lines with dots on the left and right sides.

A woman with long, wavy blonde hair is wearing a vibrant yellow, form-fitting, sleeveless dress. She is standing in a lush green forest, looking back over her shoulder towards the camera. The background is filled with soft, out-of-focus bokeh lights in shades of green and white, suggesting sunlight filtering through the trees. The overall mood is elegant and natural. The text 'FASHION AI SHOW' is overlaid in a large, white, serif font, centered on the image. The text is framed by a thin white border with decorative elements: a horizontal line with three dots at the top left, and horizontal lines with circular end caps on the left and right sides.

# FASHION AI SHOW

**Ai Prompt: Models dressed in geometric prints with vibrant colors are more than welcome in this season's dresses - and they can also be part of your work look if the dress code is not too strict.**

A woman with long dark hair is sitting on a black motorcycle. She is wearing a dark denim jacket over a light blue denim dress. The motorcycle has chrome mirrors and a black seat. The background is a blurred view of a blue sea and a clear sky. The text 'FASHION AI SHOW' is overlaid in the center in a white serif font, with horizontal lines and dots on either side.

# FASHION AI SHOW

**Ai Prompt: Model dressed in the summer dress vibe, with both textured and basic smooth fabric options. However, the outfit, which would already be complete with just one piece, takes on a new look.**

**Model on the Cover - Canva (text to image)**

**Prompt:** Blonde woman with her hands on her face covering her eyes but looking through her fingers, only the model's face is visible with a pink gradient background.

Adobe Firefly is an amazing tool that allows users to create clothing models based on specific prompts. This functionality enables users to experiment with a variety of styles and designs, customizing clothing models with unique and innovative details. Firefly also offers the ability to create characters and bring them to life through a wide selection of accessories and customization options.

With Firefly, it's easy to unleash creativity and create incredible designs quickly and intuitively. All the models were created using this fantastic tool by following the prompts described in the magazine.

## Extra Prompts :

**\*p1** (prompt) - Model leaning against a wall with hanging plants, wearing jeans with a tank top and black leather jacket, looking serious but cheerful.

**\*p2** (prompt) - A model with a mischievous look wearing a black top and modern dark green pants made of lightweight fabric, with her arms crossed and in a photoshoot position for a magazine.
